FRAMEWORKS

Django/ Flask
Rasa Stack
Dialogflow
Jekyll
Tensorflow/Pytorch/Fastai

EDUCATION

A.I.T.R, Indore
2012 – 2016 (7.9 CGPA)
Bachelor of Engineering – Electronics and communication

WORK EXPERIENCE

JIO Data scientist
Entity Resolution, (2017 to 2018)
Developing and deploying python based Entity resolution Systems (dedupe, flak, flask-restful, python 3).

JIO Data scientist
DKYC Module, Python Developer (2018 to Present)
Developing and deploying python based DKYC module for face recognition (python, OpenCV, flak, flask-restful, imutils, pillow)

JIO Data scientist
Chat Bot (2018 to Present)
Automated NLP based Chat Bot for process automation and FAQ. (Python, NLTK, Pandas, Flask, Dialogflow, Rasa.)

JIO Data scientist
RPA Bot (2018 – 2019)
Developed Robot Process Automation bot for rendering the email attachment and transforming the data in normalize format. (Python, Ulpath, RPA)

JIO Data scientist
CAAS (Jan 2018 to Present)
CI/CD pipeline for developer environment by providing them with Jenkins, sonarqube, fortify, selenium and jmeter. (Python, docker. Kubernetes, CI/CD.)

SKILLS
